I'm in the midst of upgrading to Logic 4 from Logic 3 right now. So far it
looks like a Windowized version of Logic 3. I'll have to try using it a
while before I can pass judgement. My main reason for wanting to upgrade
to the Windows version was to allow me to use my computer for other things
while running Logic. I was kind of hoping for a more Windows like interface,
but the Logic 4 interface will be comfortable for anyone that has used Logic 3.

As I learn more about it, I'll report back here.

73,
Todd

SH>While studing for my license, I like to listen in on the conversations
SH>that go on. I also found out that Gordon West does a On-Air Code
SH>review and practice on Monday & Tues. 04:00 Zulu or 8:00 PM on
SH>144.330 (Simplex)

SH>What I would like to do is get a list of repeaters in So. California
SH>that I can tune into. And when I get my ticket talk on. Does
SH>anyone have a list or know where I could find one. Is there a repeater
SH>guide published.

The ARRL puts out a repeater listing book called (guess what?) The ARRL
Repeater Directory. My 1992 edition was \$6. See QST for the address and
current price.
